## **IMPORTANT!!! Wall level finish and wall box mounting position:**

Wall surface where the Switchhub will be Installed needs to be evenly flat. This is to ensure that the touch panel magnetic will 100% attach properly to the surface of the Switchhub.

# HUB PAIRING AND RESET

## Wi-Fi Hub Pairing and Reset

### INSTALL MOBILE APPLICATION and sign in

Please Download and install compatible Tuya APP from Google Play Store or Apple App Store.

Smart Life download link:

<https://play.google.com/store/apps/details?id=com.tuya.smartlife>  
<https://apps.apple.com/ph/app/smart-life-smart-living/id1115101477>

<https://apps.apple.com/ph/app/tuya-smart/id1034649547>

## To Pair

### Step 1:

Detach the smart touch panel to access the hub reset button and led indicators.

**Step 2:**

Wi-Fi Hub will automatically set to pairing mode when powered ON. Blue light is ON and the red light is blinking when ready to pair.

**To pair to the APP, open APP:**

*Note: When connecting the Wi-Fi Hub, make sure that the mobile phone is connected to 2.4GHz Wi-Fi, otherwise the Wi-Fi Hub cannot be registered through the cloud, and the connection cannot be successful.*

Add device -> Choose Gateway Control -> Wireless Gateway (Zigbee). Follow APP instructions.

For manual pairing, press reset and hold for 5 secs until two green lights appear.

## To Reset

To manually set pairing mode or to RESET press and hold reset button for 5 secs. Blue light is ON and the red light is blinking when ready to pair.
